FAIRLOG – THE NEW LOGISTICS SYSTEM

Department Traffic and Security

■ Everything as it was before...only better!

The logistics surrounding trade fairs is becoming increasingly complex. Stands are becoming more prestigious and covering larger areas. However, time and space to set them up and dismantle them is limited.

In view of this, the logistics for this year's EXPO REAL will be handled via the truck check-in – as it was in previous years. In order to improve efficiency and organization when setting up and taking down stands, EXPO REAL together with Messe München now relies on an IT-supported system for logistics handling: FairLog!

■ What is new?

For vehicles with a total length of more than 8 meters, time slots for setting up and taking down stands at automatica can be booked via FairLog at

<https://portal.syncrosupply.com>

from the end of August on. Once you have given details of the hall and stand number as well as the vehicle's load quantity, a suitable time slots will be reserved for you in the neighboring loading yard.

Your driver reports to the check-in at least 30 minutes before the time slot begins in order to give details of their vehicle registration number and mobile phone number.

At the same time, FairLog automatically analyzes the availability of space in the loading yard on an ongoing basis. If a suitable space is free and the time slot begins, your driver will automatically receive a free message on their mobile phone asking them to drive onto the site.

■ What happens if no time window has been booked?

Vehicles which turn up unannounced will also be recorded at the

check-in and then processed via FairLog. Naturally, vehicles for which a time slot was booked in advance will be given priority! Drivers of vehicles that turn up unannounced must therefore expect to wait longer.

■ Anything else?

There are changes for vehicles with a total length of less than 8 meters, too. In 2018, deposits will be left at a central location on the North Site rather than at the access gate to the site. This will help to avoid waiting times at the gates and traffic backing up onto public roads.

For greater convenience, the deposit of € 100.00 can be left at a drive-through payment point – there is no need to leave your vehicle. You will then be directed straight to the halls.

The deposit will then be refunded at the exit gate for the site. There is no need to go past the drive-through payment point again.

■ Where can I find further information?

You will find all important information regarding timing, access gates etc. in this traffic guide which also available for download on the EXPO REAL website under „Dates & Logistics“.

Further details regarding FairLog, e.g. how to book time slots, will be available on the homepage by the end of August.
